Summary

Hi I am Peter Sammon, Web developer in training from Dover, NH. Currently, I am an aspiring developer in training in bootcamp learning about full stack web development. I thoroughly enjoy building web applications, anything from basic html to full stack CRUD applications.

If you are a potential business seeking some sort of web presence and/or employer looking to hire, feel free to get in touch with me.

Experience

Hench Printworks

Project 3

Aug 2020 - Sep 2020 (2 months)

Full Stack ecommerce application for a mock Screen Printing shop that features select apparel. This application was the final project of an intense 6 month, remote Full Stack Bootcamp at the University of New Hampshire. Some of the features that this application has are the following:
- login authentication
- protected routes
- payment processing
- contact submission form
- FERN stack (firebase, express, react, node)

Zomato

Project 1

May 2020 - Jun 2020 (2 months)

This was the first major project for the UNH Full Stack Boot Camp. In this application the user searches for restaurants in their given area to be able to find where they wish to eat out.

Education

University of New Hampshire

certificate, Web Development

2020 - 2020
